EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Att. Ackerman on 05/03/04.

In the Claims

In claims 4 and 5, line 1, after "wherein" delete – to --.

In claim 20, line 3, replace "consecutive" with – high side and low side external --.

In claims 41 and 42, line 1, after "wherein" delete – to --.

In claim 69, line 3, replace "said several" with – low side and high side --.

In claims 71, 72, 100 and 101, line 1, after "wherein" delete – to --.

In claims 115- 121, line 1, replace "means" with -- coupling element or four-pole circuit --.

In claim 122, replace "means" with – combination of said capacitor --.

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

The present invention is drawn to a high voltage interface and driver control circuit utilizing low side switching device, high-side switching device, means for controlling and driving the low-side switching device, means for controlling and driving

the high-side switching device, means for generating, storing, and processing information data, means for transmitting and/or receiving information data, means for transferring information data, means for potential separation and isolation, means for storing, means for transporting, means for generating, controlling and regulating, means for starting up, means for generating and controlling the low-side and the high side output signals, or first – second capacitors, a combination of a capacitor, a two-wire connection, a coupling element or four-pole circuit, first – second pair of internal switching devices, internal circuit blocks and two resistors recited in claims 1-132. None of the prior art disclosed or suggested to show the particular structure and/or the particular operation recited in these claims namely: the combination of all the method steps as recited in claims 1 and 20; the combination of all the elements as recited in claims 38, 69 and 99.

The prior art references submitted by the applicant on IDS forms received on 10/14/03 & 03/03/04 were reviewed and considered. These references appear to be the best references with respect to the claimed invention and closely matched most of the references found during the examiner's searches. However, as noted above, the combination of all the elements is not disclosed. Therefore, the claims are patentably distinct over all these prior art references of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to My-Trang N. Ton whose telephone number is 571-272-1754. The examiner can normally be reached on 7:00 a.m - 5:30 p.m.
